## Media Advisory - Air Canada Participates in Recognition Event Marking Introduction of Biojet Fuel at Toronto-Pearson International Airport

MONTREAL, April 17, 2018 /CNW Telbec/ - Air Canada will participate in a recognition event Thursday, April 19, 2018 hosted by the Canadian Biofuel Supply Chain Initiative (CBSCI) to mark the introduction of biojet fuels into Toronto Pearson International Airport's shared fuel system. Air Canada will be joined by representatives from the Green Aviation Research and Development Network (GARDN), Greater Toronto Airports Authority (GTAA), and other stakeholders. The event is being held in conjunction with Earth Day to celebrate the completion of the operation of this research project which introduced 230,000 litres of sustainable biofuel into Toronto Pearson's shared airport fuel system.

Details are as follows:

<b>Date:</b>	Thursday, April 19, 2018
<b>Time:</b>	10 a.m.
<b>Location:</b>	Terminal 1, Toronto Pearson International Airport, 6301 Silver Dart Dr, Mississauga (departures level near aisle 15).

Representatives of various stakeholder groups will present information related to environmental initiatives and be available for media interviews.
