### About the Skytrax World Airline Awards

The World Airline Awards are independent and impartial, introduced in 1999 to provide a customer satisfaction study that was truly global. Travellers across the world vote in the largest airline passenger satisfaction survey to decide the award winners. The awards are referred to by media around the world as "the Oscars of the aviation industry". Skytrax pays all costs of the Survey and Awards event, and airlines do not pay any entry or registration fee. The awards event and award presentations are supplied by Skytrax at no charge. There are no fees or costs for airline use of the award logos and results. Over 100 customer nationalities participated in the survey with 21.65 million eligible entries counted in the results. Survey entries were screened to identify IP and user information, with duplicate, suspect or ineligible entries deleted. More than 300 airlines are featured. The online survey operated from September 2018 to May 2019, together with invitations sent to previous year respondents in the Skytrax survey database. The customer survey was operated in English, French, Spanish, Russian, Japanese and Chinese. On a year-to-year basis, the most substantial increases were noted in customer voting across the Chinese and Spanish language surveys.
