Air Canada Cargo Becomes First Canadian Carrier to Approve Envirotainer Releye RLP and RAP Containers

MONTREAL, September 1, 2022 – Air Canada Cargo will be the first Canadian operator to use the new live monitored, temperature-controlled certified aircraft containers, the Envirotainer Releye RLP and larger RAP, as part of the AC Absolute solution. The Releye RLP and RAP containers are designed to meet the strictest requirements in pharmaceutical air freight. With their unsurpassed 170 hours of autonomy (more than one week) on a single battery charge, it will maintain the temperature and protect the cargo longer than any other available solution.

These containers enter service following the recent inauguration of Air Canada Cargo's new cold chain handling facility at its Toronto Pearson International Airport hub, a testament to its continued focus on strong operational integrity and continued investment in cold chain infrastructure.

The Releye RLP and RAP containers are equipped with 18 integrated sensors that monitor important aspects during shipping, including their location, internal and external temperature, battery level, humidity, door openings, cargo loaded, and GPS so customers can track their shipments in real time.

Air Canada is CEIV Pharma certified by IATA, which signifies that the airline meets the highest standards of safety, security, compliance and efficiency in the transport of pharmaceuticals.

About Air Canada Cargo

Air Canada Cargo is an award-winning provider of air cargo services. It is Canada's largest air cargo provider as measured by cargo capacity, with a presence in over 50 countries and self-handled hubs in Montreal, Toronto, Vancouver, Chicago, London, and Frankfurt. As the dedicated air freight division of Air Canada, Air Canada Cargo offers reliable air freight lift and connectivity to hundreds of destinations across six continents using Air Canada's domestic and international passenger flights, cargo-only flights with its fleet of Boeing 767-300 freighter aircraft, and trucking services. About Air Canada

Air Canada is Canada's largest airline, the country's flag carrier and a founding member of Star Alliance, the world's most comprehensive air transportation network celebrating its 25th anniversary in 2022. Air Canada provides scheduled passenger service directly to 51 airports in Canada, 51 in the United States and 86 internationally. It is the only international network carrier in North America to receive a Four-Star ranking from Skytrax, which in 2021 gave Air Canada awards for the Best Airline Staff in North America, Best Airline Staff in Canada, Best Business Class Lounge in North America, and an excellence award for managing COVID-19. Through its leading travel loyalty Aeroplan program, Air Canada offers the ability to earn or redeem points on the world's largest airline partner network of 45 airlines, plus through an extensive range of merchandise, hotel and car rental rewards. Its freight division, Air Canada Cargo, provides air freight lift and connectivity to hundreds of destinations across six continents using Air Canada's passenger flights and cargo-only flights with its fleet of Boeing 767-300 freighters. Air Canada has committed to a net zero emissions goal from all global operations by 2050.
