MONTREAL, August 2, 2022 – Air Canada reported its second quarter 2022 financial results this morning. The [details are here](#).

Jason Berry, Vice President, Cargo, at Air Canada also provided the following statement:

“It has been another exciting quarter for Air Canada Cargo as we continue to strategically build our business and invest in our future. The ongoing growth and support from the forwarding community across our global network has been a key to fueling our future. Our careful and targeted investments in our freighter fleet and our self-handled cargo-only ground operations in our major hubs throughout Canada and internationally together with staying laser focused on our quality of service to the vast forwarding community we serve, are key strategies as we continue to strengthen and grow as North America’s only combination carrier,” said Jason Berry, Vice President, Cargo at Air Canada.

“The second of our Boeing 767 converted freighters entered service and we took delivery of two brand new 767 freighters from the Boeing factory, and they will enter service in 2023. Today, we announced a further expansion of our fleet with the acquisition of two factory-built Boeing 777 freighters, to enter service in 2024. The news today is a testament to the amazing work of our employees and partners and I would like to thank them all for their continuing efforts to transform our business. The investment in long range widebody freighters, combined with our growing 767 freighter fleet and robust passenger network will allow us continue to bring to life the most flexible and diverse cargo operation in the Americas. On the ground, we are continuing to make considerable investments in facilities, technology and our people to prepare us for the growth that lies ahead,” Mr. Berry added.

About Air Canada

Air Canada is Canada's largest airline, the country's flag carrier and a founding member of Star Alliance, the world's most comprehensive air transportation network celebrating its 25th anniversary in 2022. Air Canada provides scheduled passenger service directly to 51 airports in Canada, 51 in the United States and 86 internationally. It is the only international network carrier in North America to receive a Four-Star ranking from Skytrax, which in 2021 gave Air Canada awards for the Best Airline Staff in North America, Best Airline Staff in Canada, Best Business Class Lounge in North America, and an excellence award for managing COVID-19. Through its leading travel loyalty Aeroplan program, Air Canada offers the ability to earn or redeem points on the world's largest airline partner network of 45 airlines, plus through an extensive range of merchandise, hotel and car rental rewards. Its freight division, Air Canada Cargo, provides air freight lift and connectivity to hundreds of destinations across six continents using Air Canada's passenger flights and cargo-only flights with its fleet of Boeing 767-300 freighters. Air Canada has committed to a net zero emissions goal from all global operations by 2050.
