Media Advisory - Air Canada advises computer problems causing some flight delays

MONTREAL, Nov. 16 /CNW Telbec/ - Air Canada is advising its customers that it is currently experiencing technical difficulties with a computer system which is resulting in some flight delays. We expect the issue will be fixed shortly.

Travellers are advised to check their flight status at www.aircanada.com or by calling Air Canada Reservations at 1-888-247-2262; TTY: 1-800-361-8071.
